

Real Goods Solar is a full-service solar installation service provider handling design, installation, utility interconnection and rebate paperwork. Our experience installing high quality solar systems has made us an industry leader. We have done over 6,000 installations. We have 32 years of experience, passion and commitment to solar.

Real Goods Solar is a part of the Real Goods family of services that also includes education and eco products. Real Goods solar provides education for sustainable living practices through the Solar Living Institute and provides a variety of quality personal, household and solar products from the Real Goods Store.

Realty Concept's clients who adopt Real Goods Solar for their home will enjoy the benefits of solar living, such as saving on lifetime energy costs and supporting a healthier lifestyle.

**Realty Concepts will also give each client who purchases a solar installation or power purchase agreement from Real Goods Solar an added benefit of \$500 cash, a \$500 gift certificate for Real Goods products from the Real Goods Store, and a Solar Living Source Book.**
